

Número de Votos x Receita

This scatter plot displays the relationship between the number of votes and revenue. The y-axis represents revenue on a logarithmic scale from 10K to 10B, and the x-axis represents the number of votes from 0 to 2.5M. The data points are orange circles.

Mediana de Receita x Faixa de Número de Votos

This horizontal bar chart shows the median revenue for different ranges of the number of votes. The y-axis lists the vote ranges, and the x-axis shows the median revenue from 0 to 1,000M. The bars are orange.

FaixaVotos	Receita (Mediana)
1. 0-250k	~20M
2. 250k-500k	~100M
3. 500k-750k	~450M
4. 750k-1M	~250M
5. 1M-1.25M	~620M
6. 1.25M-1.5M	~540M
7. 1.5M-1.75M	~920M
8. 1.75M-2M	~810M
9. 2M+	~840M

Duração Total x Nota Média

This scatter plot shows the relationship between total runtime and average rating. The y-axis represents the average rating from 0 to 10, and the x-axis represents the total runtime on a logarithmic scale from 10 to 100,000 minutes. The data points are red circles.
